ready sold just before the committee was able to inspect them and others unsuitable for the purpose were the lot of the committee. Much work and careful consideration went into the inspec tion tours. However, it seemed that the dream was doomed never to materialize. But then the manna appeared. The word of a piece of property on the market scarcely for a matter of hours came to the ears of the committee. No time was wasted and inspection, decision and pur-

chase soon followed.

Primarily used by day campers at present, Pomroy House Camp will enlarge the scope of activity as time goes on. The sturdily-built house was finished in August of 1951. In the spring of 1952 the Board of Directors held its meeting t ere and was so pleased with the selection that the fall meeting took place there, too. The summer of 1952 inaugurated the site in use as a day camp. The Colden Age group loves its outings held there in the quiet peace on the veranca with the view of the lake through the birches. Groups from West Newton Community Ce tre also share the enjoyment of

the lovely spot.

The Mothers' Club and t Board of Directors working gether have earned money amo Pomroy House groups in diff ent ways to furnish necessities and to set aside a fund for the upkeep. A doll show, rummare sale, food sales, all are grist to the mill of the industrious workers. The \$304.00 needed to buy the swimming crib was raised in this fashion. A representative group of teen-age girls painted the metal stranchions and boards which form the safe swimming

area or "crib. "Sandy" and a group of wom-en from the Mothers' Club dein a jingle and to answer two ure time to the task of painting the floor of the porch and win-

Trade Best Solution

Despite all the billions of dollars-\$30 billion in Europe alone—that have poured over-seas since the end of World War II, most of the free world's economies are still in need of being straightened out. What is more, there are a good many signs of resentment against this nation, due to the fact that no proud people likes to be a dependent. Our billions have not bought world gratitude.

Foreign aid no doubt was necessary. Now it is time that we began to taper off dollar aid, certainly in non-military economic areas. Trade among the nations of the free world can promote better standards of living both here and abroad, and will improve international good-will, as lavish dollar assistance has not done and will not do.

#### The Fire Chiefs Act

The Fire Chiefs are fighting Muscular Dystrophy.

During this month, members of the Fire

Chiefs Club of Massachusetts will sound the alarm for the Muscular Dystrophy Appeal. They will direct the distribution of canisters and receive donations.

Medical science knows of no cause and no cure for Muscular Dystrophy.

This fact alone is not unique, but for those who have the disease that statement is at once a death sentence and a challenge. For the effects of the mystery disease with the almost unpronouncable name are terrifying in their relentless simplicity.

The families, parents and friends of victims are trying to help medical researchers find a solution to their problem. During December they're holding a drive for re-search funds with Arthur Fiedler, well known conductor of the Boston Pops Orchestra, as campaign chairman.

Of the 100,000 victims of Muscular Dystrophy, more than 65,000 are children. Most of these children die before adolescence and

almost all die before maturity.

Muscular Dystrophy is painless, noncontagious, and almost always fatal. In itself, the disease does not kill its victims, but the wasted muscles are so weak that patients fall prey to other diseases, primarily respiratory ones such as pneumonia. Unable to cough or sneeze, the victim of Muscular Dystrophy is then apt to succumb to suffocation.

The Greater Boston Chapter of the Muslar Dystrophy Association was formed last year. Since that time it has helped the national association establish 15 research projects on an international basis. These institutions are staffed by the finest medical men in the world. All grants-in-aid for research are approved by a distinguished advisory board of medical men to insure superlative standards of investigation.

The campaign for funds to find the cause of, and cure for, Muscular Dystrophy is a most worthy undertaking. Won't you help? Donations may be sent to Muscular Dystrophy Appeal, Box 8, Boston.

#### The Myth of Old-Age Security

Our vaunted "Social Security" system just isn't working. The cumulative effect of the government's long-standing tax-spend policies, and accompanying inflation, have made security a myth for most of our elderly citizens. Striking but tragic proof of the system's failure lies in the fact that today, among persons 65 or older, one out of every five is on relief. The shocking total is 2,700,-000—almost twice as many as at the depths of the depression.

Appraising the financial impasse of the ed, in the December Reader's Digest, Charles Stevenson cites individual cases to illustrate a penury that is spreading like an epidemic among those who have outlived their productive years. Breakdowns in health, from the effort to make both ends meet on ridiculously inadequate incomes, are

Unable to get along on federal Old-Age and Survivors' Insurance benefits, thousands seek employment. At 65 or 70 or 75, jobs are not easy to get, and even if the pensioner finds one it may not help much. In most cases, if a job earns over \$75 monthly the job-holder is subject to the penalty of having his federal benefits canceled for that month. Monthly benefits were denied in two cases named in the article, because job earnings the allowable maximum by 71 cents and 63 cents, respectively. In another, a couple was suspended from OASI rolls for three months because the husband had taken \$2.99 worth of sandwiches for pay. Their loss in federal benefits was \$210.

To exist at all, elderly people are increasingly drawing on their capital. Federal Reserve studies disclose that fewer have savings accounts, U. S. bonds or income from stocks, than in 1949. Only 14 percent of them were in debt then; last year a third were in

We must check inflation and stop confiscatory taxation if we are to resolve this dilemma of the aged, the author urges. We should also remove the limitations which prevent old-age insurance beneficiaries from working. The alternative is real proverty for most of us in our declining years.

#### Towns For Sale

Folks who have been burning up shoeleather looking for new homes should see what the newspaper-ads are offering at Greenbelt, Md., right next door to the Nation's Capital where housing normally goes for premium prices.

For instance, the ads display a twobedroom home for \$2,200 (full price) with only \$341 down and 25 years to pay at 4 percent. One-bedroom homes are offered at \$1,600. Three-bedrooms sell for \$9,000. And a good number of the homes are masonary, whipped cream, plus mounds of whipped cre a good number of the homes are masonary, too, with copper plumbing, gutters and downspouts. There is even a private lake, nearby, stocked with fish.

'Give-away" prices, the ads say, but it is the taxpayers who made the "give-away" paid for them. More than that, taxpayers have been subsidizing them for 16 years.

For these bargains are least to the subsidizing them for 16 years.

For these bargains are located in one of fort of being gelatin fortified. the three "green-towns" Uncle Sam built during the depression. Residential sections of the other two are already sold, also at bargain prices, and taxpayers made that possible too. The other two greentowns are the pie takes very well to almond

Altogether, they cost \$40,000,000. Needless to say, taxpayers will get back only a fraction of that figure.

#### There Aren't Enough

If you're still gullible enough to believe that we can pay most or even a substantial part of the incredible cost of government by soaking the rich," some facts that Senator Walter George presented in a magazine article will come as a rude awakener.

If Congress confiscated all taxable income

over \$100,000, by imposing a flat 100 per cent tax at that level, the amount of additional revenue would be sufficient to operate

the Federal government for four hours.

If all taxable income over \$26,000 were confiscated, the yield would run the government for three days.

If everything above \$10,000 was taken in toto by the tax collector, it would pay the government's bills for 16 days.

Finally, if Congress shot the works by imposing a 100 per cent tax on all income above \$8,000, the additional revenue would keep

the government going for 22 days. This being true, who must pay the great parts of the country, due to bulk of the government's spending—and who must pay almost all of future tax increases if they come? The answer is, people of small and moderate means—the people who is the country, due to severe storms disrupting power transmission lines and primary circuit distribution systems. These interruptions have usually lowing these serious storms, the small and moderate means—the people who work for wages and modest salaries, the people who have little businesses, the people operated oil burners and other who represent the majority of America's population and are the backbone of America's strength.

## CURRENT COMMENT

Whitney to Be Key Figure in Council . . .

One prominent office holder, whose spectacular election-day run a month ago was virtually overlooked in the momentous happenings, was Governor's Councillor Otis M. Whitney, whose district takes in Newton

M. Whitney, whose district takes in Newton.
Political observers watching the official
canvassing of the returns by the Executive Council expressed surprise when they showed that Whitney had achieved reelection by a 50,000-vote margin at a time when so many people were recording their dissatisfaction with other State officials.

The queit, hard-working Whitney, who has gradually come to be recognized for his understanding of State administrative prob-lems, will be the Councillor upon whom Gov-ernor-elect Christian A. Herter will lean

heavily for counsel on any matters.

He will be the senior member of the incoming Council, having survived the Democratic landslides in 1948 and 1950, and he has the background to guide Herter who has been in Congress and away from the State House for the past decade. Comparatively few people realize that the modest Councillor Whitney has an out-

standing military record, that he holds numerous citations for valor while serving in the South Pacific during the last war. He is likely to become increasingly prominent in Republican affairs in the years ahead.

#### State Will Not Enter Insurance Field . . .

One reassuring aspect to the controversy over the compulsory automobile insurance rates that will be charged next year is that very few politicians are suggesting that the State take over the insurance of cars.

The proposal has been advanced, of course, but it has come mostly from politicos primarily interested in seeing their own names in the papers and letting their constituents know that they are still among the

One certain and unfailing way of worsening the complicated problem involving the compulsory coverage of automobiles would be to have the State go into the insurance business and start writing the liability

An attempt will be made to do this during the next session of the Legislature, but it will be defeated by sober-minded legislators who realize what such a step would mean.

Some motorists have written in to ask why since the law requires every motorist to carry compulsory coverage, the State doesn't establish its own agency and take the business away from the insurance companies.

The answers are relatively simple. The State couldn't do as well as the insurance companies now do. As a practical matter a public agency rarely, if ever, performs any function as efficiently as private industry.

Whatever fault may be found with the way the insurance companies now handle

the problem—and there are numerous grounds for complaints—the way to achieve complete chaos would be for the State to

take over the matter. Automobile owners would pay more for their insurance—not less—and they prob-ably also would be paying taxes as well to underwrite the deficits that occurred. It

would be something like the present M.T.A.

Can you imagine what would happen if a State agency were deciding how much John Q. Voter should get for his sprained ankle or dented fender?

Everyone who knew a politician's cousin would be seeking an extra \$100 on his settlement, and the politicos would be buzzing like bees around the agency, interceding for favored constituents and pressuring the members to be a little more liberal.

members to be a little more liberal.

You could almost anticipate their arguments. They'd go something like this:

"Mr. Voter is a good fellow. There are six votes in his family, and he has a lot of relatives. His brother-in-law worked all day for me at the polls. Add on another \$100. After all it isn't coming out of your pocket. Remember your appropriation will be coming up soon and we'll be considering a raise for you."

There is no reason to pin any medals on the chests of the insurance officials for the job they do.

All too often they're too tight-fisted with the honest person seeking only what he's entitled to and fooled by the chiseler who is taking advantage of a small accident to grab for a windfall.

But they do a better job than any State agency ever would do under any imaginable Amid the screams and protests from the

politicians it should be remembered that the amount of compulsory insurance you must pay is determined by the number and severity of the accidents caused by car own-

ers in your community.

The insurance officials cite facts and figures to show that their firms have been losing money on the compulsory policies for the past several years.

Some of the politicos challenge the figures and claim they're not so. They insist that the claims of losses are a fake and that the companies really are operating at a

profit.

Well, if the figures are inaccurate, it's the responsibility of the State insurance examiners to expose them and show where

they're erroneous. The examiners are continually in the insurance companies checking their records and examining the records of the bureau which compiles the data on which the compulsory rates are based.

It's a bit inconsistent to argue on the one hand that the State doesn't accurately check the insurance company records and then maintain on the other that the State itself ought to go into the insurance busi-

### Ask Public to Do Christmas **Mailing Early**

In order to ease the pressure at many of the larger post offices and railroad terminals during the December peak-period, the Post Office Department has begun an intensified drive to get everyone to do his Christmas

mailing earlier.

According to both business and postal officials, early buyin; and early mailing makes real sense. In years past, according to Postmaster Joseph P. W. Finn, the week prior to Christmas was a nightmare.

In the postal service the pub-lic generally held their cards and packages until the week before Christmas, when they assaulted the postoffice lobbies, blocked all street letter boxes with cards so that they could not be open-ed, made movement in the post-office lobbies impossible and made mail operations so diffi-cult that millions of cards were as much as 24 hours behind the production capacity of even high speed canceling machines. The 84 members of the Nonan-tim Boys' Club of Newton, a Red Peather Organization, have this privilege under the leadership of Rob Blackburn, and his able assistant, Frank Copan. Other in-trests such as indoor sports, t, ps to interesting spots and the enjoyment of good books to read, are also fostered. Opportunities for greater participation with other youth organizations, and instruction in arts and crafts are on the agenda for future develop-

The boys yearn for a football team but that is out of the reach of the Club now since uniforms and equipment are costly. The successful baseball team was fortunate in being able to salvage uniforms from a disbanded group. Boys' Club tee shirts and caps were bought with funds earned from selling all sorts of salvage with a net cost to each boy of 25c for the two pieces Indian insignia on the tee shirts represents the tribe of Nonan-tum which gave Newton its name. Most of the games were played out of town since money for Little League equipment was not available.

The boys take pride in their clubhouse at 98 Dalby street, Newton. "Keep the Clubhouse Clean" signs have blossomed on the walls as a warning to careless members. Within the limits of their capacities they help with repairs and redecorating. One recent project was to put into condition folding chairs which had been donated for their use. When the Nonantum Improve-ment Association met at the clubhouse, the boys took care of the seating arrangements and acted as hosts.

Each week the boys take turns at different duties such as act ing as custodian of the game closet and equipment, being in charge of the door, and librarian. One boy is the club photographer. Monthly meetings with the boys' club president in the chair helps to determine policies. Sparking the interest of adults in reorganizing this 60-year-old club whose membership list once numbered 369 is busy, civicminded Robert E. Womboldt. With other Newtonites he was responsible for obtaining Bob Blackburn's services, stretching the budget to include heating, lighting, telephone and a part-time clubhouse custodian's salary as well as hundreds of shall chores and problems which in-evitably appear and must be solved to insure the success of this vital project.

Although no actual football is

played, tag games are favorite diversions, and a recent evening was enjoyed by members and guests viewing a football movie. An actual schedule of activities is difficult to follow. Many boys are able to drop in to the clubhouse for only an hour or so between school and paper routes and home or outside chores. Members do find their club a pleasant place and enjoy the opportunity to get into a checker, pingpong, or quoits tournament or borrow a book to read. Pets, and brothers too young to be left on their own often accompany the boys.

ohn Proia, a High School student, and former Boy Scout in Bob Wamboldt's troop is help-ing with activities, and chairman Wamboldt is often to be found at the clubhouse. The success of this project can be measured by no better means than by the fact that neighborhood girls are strong in their belief that they should have a club for the feminine contingent since the masculine contemporaries have so much enjoyment in theirs.

#### A Dangerous Habit

Hitchhikers, at best, are a nuisance value. There are many motorists, no doubt, who would gladly give lifts to those who seek such aid were it not for the uncertainty and the potential danger which exists in giving lifts to strangers. All of this is well known to the average driver and it is not our purpose here to dwell upon this phase of hitch-hiking but rather to a dangerous condition which some hitch-hikers are creating right

It may not be true in all parts of the city but it most certainly is obvious at Newtonville square, particularly between 4 and 6 o'clock in the evening. Not once, but many times, have we observed young men, mostly in their teens, seeking a ride on Washington street, near the bus stop at Newtonville square.

We see no objection to their attempt to obtain a ride to Newton Corner and places adjacent. But we do see a most dangerous condition existing in the way they seek that

These hitch-hikers are not content to do their thumbing at or near the curb. They actually take themselves practically out into the middle of the street, causing motorists to slow up and in some instances in the dusk of the afternoon, narrowly miss hitting the would-be hikers.

This condition, as practiced at Newton-ville square should be stopped, and stopped immediately before an accident occurs. In advocating this action, we do so with a sense of consideration for the hitch-hiker as well as for the motorist.

#### Through Foreign Eyes

A while ago 14 Austrian coal miners visited this country under the Mutual Security Program. A Pennsylvania newspaper devoted a page of pictures and text to describing their amazement at the unbelievable living standards enjoyed by the American

that all the cars they saw parked near the pits belonged to the miners. They were astounded at the comforts and luxuries, Lights Are in Good Condition ranging from refrigerators to TV sets they saw in miners' homes. They were amazed to find that all you had to do to get hot water in one of these homes was to turn a

When the interpreter told them that the average American miner earned over \$18 a day the Austrians assumed he had made a mistake, that the \$18 was for a full week's work. They were dazzled by the welfare and retirement benefits our miners receive. And when the president of the coal company they were visiting passed by and said hello to a group of miners they thought they'd seen a miracle of democracy. It seemed even more miraculous when the president said, "Of course I speak to them. They're my friends. I play cards with them." It's still pretty much the rule in Europe that bosses are bosses and workers are workers and never the twain shall meet.

The Austrians saw something that too many Americans overlook. Under free enterprise, the much reviled capitalist system, labor has made the greatest gains in all

#### Two Hospitals

A short time ago a new hospital was built with private funds in a New Mexico city. It is modern in every respect and represents the highest standards of presentday hospital construction and equipment. The cost was \$14,000 a room.

In the same city, and at about the same time, a new veterans' hospital was built by the government with public funds. This is also a first-class hospital, but its cost was \$34,000 a room, \$20,000 more than in the case of the privately-financed hospital. It is the government's duty to take the

best of care of those who were wounded or became ill in the service of the country, and to provide all needed facilities to that e Americans will not object to having part of their tax money used. But the tremendous difference in construction cost between this government hospital and an excellent private hospital is one more example of the from becoming too much of a extravagance that is almost inevitably a fire hazard in the homee where part of politically-directed projects. A private builder, using his own money and that of investors, seeks maximum value for every dollar spent. That is rarely the case when

the public treasury does the paying. This is also an example of what we could expect, on a huge scale, if we ever adopt socialized medicine or government-dominated medicine in this country. It is a safe bet that with it, the standards of medical care would sink and sink. Both those unhappy things happened in England after the Labor

party socialized medicine. It's a matter of record that socialism stifles progress and undermines freedom, even as it prodigally wastes our material

#### RANDOM CLIPPINGS

Just as Mrs. Albert Lindell of Milbank S. Dak., was preparing to pluck the pheasant her husband had shot, the bird took wing and flew out of the kitchen.

Scotland's whisky makers are up in arms because of the disclosure that Scandinavian distilleries are importing water from the Scottish Highlands to give the authentic Scotch flavor to their own products. One imaginative writer suggests that matters may reach the stage where racketeers will The Austrians couldn't believe at first be bootlegging water out of the Highlands.

#### Joneses Have Army in A Whirl

The old adage of "trying to keep up with the Joneses" was strained to the limit recently in Korea when four second lieutenants named Jones-two of them from Newton - joined a front-

line unit.
The four lieutehants, just to make things more confusing, are all forward observers. They are members of the 15th Field Artillery Battalion of the 2nd Infantry

The new arrivals include Robert S. Jones, whose wife, Mary, lives at 556 Dedham street, New ton Centre; Arthur O. Jones,

whose wife, Hazel, lives with his parents, Mr. and Mrs. William Jones of 58 Winthrop street, West Newton; Robert L. Jones of New Castle, Pa.; and Marion old fashioned wax candle, an angle at least 1 inch above H. Jones of Anniston, Ala.

Neither have they forgotten that Nixon demanded that the candidates for President and Vice President make public their income tax returns and then did not reveal his own returns after Stevenson,

A number of the men in the Eisenhower camp were apprehensive as to what the public reaction would be to the General's report on the financial return from his book.

That did not endeavor Nixon to them. If the men on the Eisenhower campaign

suspicion could be pointed. Ironically, the professionals in the Taft wing of the party saved Nixon by counsel-

And the Ike leaders who wanted to give Nixon the heave-ho have never really welcomed him back into the fold, despite the act which the General put on in referring to the Californian as "my boy."

Nixon Has Been Relegated to Minor Role . . .

Eisenhower's trip to Korea was that his advisers quietly insisted that he make the trip and be out of all danger before next Monday. Little has been said about this phase of the situation, but the fact is that top party leaders did not want Richard M. Nixon to become President in the event that anything

While Eisenhower was heavily guarded,

his unusual trip to the Korean war zone involved obvious dangers that could have cost his life. The men around him did not dwell on the hazards to which he exposed himself, but they timed his trip so that if anything did happen to him, Nixon would not be the next

happened to Ike.

There have been numerous indications that Nixon has fallen from favor and that he has proved a big disappointment to the man who selected him as his Vice Presidential running mate. Not only was Nixon not included in the party that went to Korea, as might have

been expected, but he was not even in the group that flew out to Wake Island to meet Eisenhower and accompany him home. How much have you read or heard about Nixon since the election? Quite obviously, he has been excluded from the conferences

at which the policies of the Eisenhower administration have been chartered. He has pretty well faded out of the public view in the five weeks since election day, and there is good reason to believe that has not been an accident.

Next Monday the Presidential electors in the 48 States of the Union will meet to cast their ballots, and when that action has been duly recorded Dwight D. Eisenhower will officially become the President-elect of the United States.

Should anything happen to him after that time, Nixon would succeed to the Presidency under the Constitution.

But if any tragedy befell Ike before the meeting of the electoral college, the electors could vote for any Republican of their

Vincent Wentworth, president and treasurer of Wentworth-Jennings Motor Company at 1180 Washington street, West 1180 Washington street, West Newton, Lincoln-Mercury dealer in the Newton and Watertown area, is enthusiastic about the new line of Mercury cars which had their first public showing yesterday.

The Wentworth-Jennings Motor Company is one of Newton's fastest expanding motor agencies and during the six years it has been in business here, has gained and held a large number of satisfied customers due in no small measure to its policy of courtesy, fair dealing and prompt

service. As an added service and convenience to its customers, Wentworth-Jennings will, within the next two weeks, open its new Shell Service Station, right next door to the new car salesroom. Mr. Wentworth heads the sales

department of the company which includes among its members, Fred Loring, Earle Stone, Jake Hoffman and Ed Taylor. A further expansion of its sales and service departments has also been planned for the near future.

Styling changes to give a low

er, wider appearance, and improved car performance are among the notable achievements in the 1953 Mercury which is now on display at the Wentworth-Jennings showrooms.

In addition, the Mercury for 1953 has a new two-position door check on the doors of all models. This extra door stop position is safer and more convenient, esin half-open position as well as n the standard full open posi-

An appreciable improvement in Mercury performance has been brought about by changes in the exhaust system and a new air cleaner. A straight - through muffler replaces the three-pass muffler used on 1952 models, and the tail pipe has been enlarged to 2 inches. These improvements have decreased back pressure as much as 50 per cent, providing a more efficient use of the power

developed by the engine.

From the front, the new Mer cury appears lower and wider one to a newly designed hood rnament, heavier chrome hood p moulding and new accessory numper guards.

New chrome side mouldings

make the cars look longer, and rew chrome, "wind splits" on the side add a distinctive touch. Monterey models come with fender shields, chrome rocker panels and chrome drip rail mouldings as standard equipment. Helping to give a wider ap

pearance from the rear is a one-piece back window and a styled leck lid lock and ornament.

Mr. Wentworth and his entire staff cordially invites all Newton residents to visit the showroom and inspect personally this smart, new, ultra-modern 1953 Mercury car.

LETTERS URGES HOPKINS'
APPOINTMENT Editor, Newton Graphic:

May I through the free press arge every alderman to consider seriously his responsibility to the voters of the City as a whole when considering the appointment of a substitute alderman to fill the vacancy in Ward 7.

A look at the election results

of November, one year ago, will show that the residents of Ward 7 unmistakably registered their approval of William E. Hopkins. his educational background, his business train ng and his genuine interest in the City, Mr. Hopkins is well qualified for the position. As a past president of the Newton Im-provement Association he is thoroughly familiar with the problems and wishes of the residents

of the Ward. For the above reason, gentle nen of the Board of Aldermen. I again urge you to appoint Wil-liam E. Hopkins.

Over the years, per-sonal friends in this field have their fellow men, and the stimution of a position which renders helpful service prompted Mr. Schaeffer to follow in their footsteps.
Mr. Schaeffer has been with

the Council for three days a week since the middle of September, 1952. He says he chose Newton because he felt he would eceive a good overall picture of Chest and Council work in a ing. Then, too, he had heard of the efficiency of the Chest and Council in Newton under the able supervision of Mr. H. J. Pet tengill, Executive Director, and Mrs. Eugenia-T. Copeland, Ex-

Mr. Schaeffer worked with the Traveler's Aid Society in Boston, another Red Feather Agency. He feels he received valuable training in agency-recipient relations as well as training in the arent organization of the

United Community Services. For his summer vacation this year, Mr. Schaeffer chose to act as fire lookout in Glacier Nation al Park, Montana. He and Mrs. Schaeffer spent 61 days on Huck-leberry Mountain, where the only neighbors were birds, bears and other wild animal life. This will not made valuable contributions to their fellow men, and the stimuthey secure enough signatures

on nomination papers. The purpose of the bill is to give both political parties an oppurtunity of nominating a ticket which will be balanced

racially and geographically.

Rawson filed a similar bill in 1951 which passed both branches of the General Court by substantial majorities. It was vetoed by Governor Dever. Rawson attempted to over-ride the veto, but was unable to obtain the necessary two-thirds majority, which was an impossible task.

However, the Republican party

held an informal assembly in conducted along the lines of the 1951 bill. At that assembly the Republicans nominated best ticket in many years. All candidates recommended were nominated in the September primary. Three were elected in November. That seems to be sufficient proof of the proposed legislation.

It is unnecessary, the mayor stated, "to shrink the usual 70foot to 40-foot frontage in a neighborhood already suffering from too little frontage on its 50-foot lots.

"The solution of the petition-er's problem lies in seeking entry

through her own property with a 20-foot way from Cabot street to serve the rear property as in the past. The area provides ample room," he concluded.

The Ryan property consists of 100-foot frontage on Cabot street to a depth of 150 feet. For more than 25 years, according to Mayor Lockwood, the rear prop-erty has been served by a driveway from Cabot street.

Details of school expansion near Pettee street, Newton Upper Falls, have been asked by former alderman John Temperley, who is seeking to tie in the expansion with street development in that section for opening "acres

In a letter recently to the Board of Aldermen, Mr. Temperley asked for the Planning Board and school authorities to canvass the area -before making final plans. He pointed out that the school extension program should not interfere with plans to aid access "the four corners of the

#### We Need Unity

Now, as never before, we need unity in America.

The Communist world has the "Unity" of people in chains. The death sentences recently imposed on Czechoslovak leaders prove what happens to Communists who fall from grace.

To meet the Communist threat, we need American unity of the highest order, the unity that comes from consecration of our hearts and minds to the ideals of freedom. So let's forget differences of race, religion, and political parties, and unite as free Americans devoted to our independence, the Constitution, and Bill of Rights.

### Dangerous December

December is the danger month on our highways.

During the past five Decembers approximately twenty-five thousand persons were injured and over three hundred killed in Massachusetts.

In this holiday season our driving practices have in other years made a battleground of our highways. Let us use cour-

tesy, consideration and common sense. Let us promote the spirit of "Peace on on our highways and "Good Will to Men" when we are behind the wheel.

ing as that may seem.

Today most of us talk about billions as casually as people used to talk about thou-

sands. And that's largely a result of the trend of government in recent years. Our national debt is around \$260,000,000,000, and annual spending has been rolling mer-rily along at an \$80,000,000,000 rate. So figures large enough to tax the imagination of a first-class mathematician are commonplace in public discussion.

In view of this, a Reader's Digest item on just what a single, solitary billion amounts to should be of wide interest. Suppose that your family started a busi-

ness with a billion dollar surplus in the year A.D. One. And suppose it had been so badly and extravagantly managed that it had lost \$1,000 every day of the 1,952 years that have gone by since then.

You wouldn't have to worry about it, you'd be a long, long way from broke. For you and your descendants could go right on losing that \$1,000 a day until the year 2,139 before you'd run out of money!

That's how big a billion is-a solitary billion, not five or ten or fifty of them. It indicates the incredible extent of today's government spending. It shows how much every taxpayer has to gain from government economy and efficiency. Thoroughly documented surveys say that Federal spending alone could be cut by as much as \$10,-000,000,000 a year without hurting any necessary activity. It's your money they've been so busily throwing away in Washington.

### Coal Town-Today's Syle

Almost everybody has heard of the "Coal Towns." And many people still believe that these towns are incredibly dreary and run-down, and that the great bulk of their residents pay high rents for substandard company-owned houses with an absolute minimum of comforts and conven-

That may have been the case once, but it certainly isn't typical now—as a recent feature story in the Louisville Times indicates. Its example is a Kentucky mining town where, as a result of a working partnership between the company and the miners, excellent homes are obtainable at a

very reasonable cost. The town in question is a "company town." But the houses are owned or are being bought by the miners themselves, at low interest rates and modest prices. The community has the usual conveniences and service we associate with any up-to-date town, and its development is scientifically planned. During the first six months of this year the average miner's income, though, incidentally, the mine is not unionized, was \$514 a month. In addition, the company pays a 30 cent royalty on each ton of coal mined which belongs to the miners and can be used by them in any way they wish. Miners who want to can buy company bonds paying 10 percent interest. At the same time, a miner buying his home from the

company pays but 4 percent on his debt.
This is indicative of the fact that the American coal miner is the highest paid worker in any comparable calling the world around. His living standards reflect that

U.N. ACCOMPLISHMENTS

There are two dangerous misconceptions rampant among our people today, both unfortunately fostered by some news commen-tators and columnists who should know that they are over

looking or slanting basic facts.

The first false idea is that we can do without the United Na tions. This is in direct opposi-tion to President-elect Eisenhower, who says in an article in United Nations World ". . . I happen to believe in it with my whole heart. I cannot overstate my desire to see the United Nations made stronger, to see it win more and more people to its support and to a greater de-

Because he knows, as do all who have followed the figure very prominently in the Eisenhower scheme of things, despite the fanfare that United Nations' activities that it unquestionably will be made over their comhas, in spite of its weaknesses and shortcomings, a great many performances to its credit. During seven years the United Na-tions has succeeded in stopping three local wars that could have expanded into World War III,namely Kashmir, Indonesia, and Palestine. How? Through pa-tient, painstaking, often long-drawn-out debate, conferences, conciliation, mediation. The talk, pleadings, scolding, repetitions, sneered at by the unthinking as being of no avail—have in these instances served to relieve the losis patients and their families, and for educational services lid from being blown off.

There are 15 members of the United Nations including the munist aggression. Not one of these nations is bearing the brunt of the fighting,—South Korea is! Of the 15 divisions in the Korean line, only 5 are American. Sixty percent of the front line in Korea is held by ROK troops, 15 percent by units from UN countries other than the U.S., and 25 percent by us. Gen. Van Fleet, commander of the U. S. VIII Army in Korea, says that "gallant troops" from Australia, Belgium, Luxembourg, Canada, Colombia, Ethiopia France, Britain, Greece, New Zealand, the Netherlands, the Philippines, Thialand and Turkey are contributing. When he told a visiting Congressman these facts, the Congressman was "utterly amazed" because he had understood "we were doing it

successfully for over a year, and the patience of the American people is beginning to wear very thin. Yet do we seriously think we can pull out of the U.N., go it alone in repelling the encroach-ments of Communism and its appeal to millions of the restive underprivileged throughout the world?

I cannot, in one letter, list even the main accomplishments of United Nations agencies in average American pays annually, only 75 cents goes to support the United Nations and all its agencies.

# Retires After 29 Years of Police Service

William J. Maloney First Appointed in 1923-Is World War I Veteran

William J. Maloney of 46 Eden evenue, West Newton, a member of the Newton Police Department for 29 years and prominent in veteran affairs in the city, retired from the police force Tues-

Appointed a policeman on April 23, 1923, he worked most of the past 29 years in the Newtonville area except for the past three years as desk officer at Police Headquarters in West

mander of the Sgt. Eugene J. Daley Post, Veterans of Foreign Wars, for three years, and he has served as chairman of the United Veterans Organizations of Newton for a similar term.

During World War I he was a member of Battery B, 101st Field Artillery, 26th Division, under the command of Capt. Sin-clair Weeks, former Newton mayor recently named Secretary Commerce. He was educated at Boston College High School and at Seminary St. Hyacinthe,

As chairman of the UVON, Mr. Maloney has supervised sendoffs of local inductees since the bealso has assisted Edmund T. Dungan, commissioner of veterans services, in supervising vet-

erans' burials.

At present he is treasurer of the Newton Citizenship Council, which has as members several local civic, fraternal and veteran organizations. He and his wife, Florence, has six children.

No wonder everyone's cheering our famous Sani-tone Service. It's decidedly better in every way. See for yourself the difference it makes and remember it costs more than ordinary old fashioned dry cleaning. Try

# Jaycees Elect Mr. Maloney has been com. S. M. Spaulding As President

Stuart M. Spaulding was elected president of the Newton Junior Chamber of Commerce last week by the Board of Direc-tors to fill the unexpired term of L. Johnson Callas, who resigned because of his law practice.

The board also considered the formation of a Good Government Committee which would be responsible for helping equip school children, through programs both in and outside the classroom, to be future leaders.

Kirk Newell of Lynn, state president of the Jaycees, was a guest at the meeting held in Mr. Spaulding's home, 136 Beaumont avenue, Newtonville. Two state vice-presidents attending were Gus Albrecht of Weymouth and George Lunn of Braintree.

Others present were Charles E. Feeley, Edwin Weist and Nathan Clark, all vice-presidents; Edward Garland, secretary; Robert Perkins, treasurer; and Monte G. Basbas, Earle W. Greene and Robert Moulton, directors.

A supper meeting will be held by the Junior Chamber on Wed-nesday, January 7. The time and

# **Pearl Street** Parking Area Ready Sunday

Delayed for more than a year, the off-street parking area on Pearl street, Newton Corner, will be covered with a temporary surface for public use by Sunday, City Engineer Ulderico M. Schiavone reported today.

With the completion of the new lot, parking meters on the north side of Newton Corner will go into operation. Work on the parking area was delayed by the failure of ocupants of homes on

the site to move.

Mr. Schiavone also reported that the mile-long sewer in Oak Hill was completed, except for grading. The replacement sewer which crosses the Charles River at Echo Bridge is now in operation, he stated. The former sewer was one of the sources of pollu-tion of the Charles.

# Names Newton Centre Youth To Annapolis

A Newton Centre youth was appointed to the U. S. Naval Academy last week by Gov.-elect Christian A. Herter, acting in his post as congressman from the 10th Congressional District, and two other Newton youths were named alternates to Annapolis and West Point.

William A. Kerr, Jr., of 52 Berwick road, Newton Centre, received one of the congressman's three appointments to the Naval Academy for the class entering

The first alternate to Mr. Her-ter's three Annapolis candidates was Thomas F. Donnelly of 6 Ridge avenue, Newton Centre. Stanley T. Johnson Jr., of 41 Walden street, Newtonville, received the appointment as second alternate to the two appointments for the class entering the U. S. Military Academy in 1953.

# To Present Pupils In Festival Dec. 20

Katharine D. G. Gorman, who conducts a School of Dance at the Newton Centre Woman's Club on Tuesday afternoons, will present her students in a Christmas festival Saturday afternoon at the Sheraton Plaza Hotel, Boston. About 300 pupils will appear in a ballet, pantomime and tap-dance program.

# Newton Centre

Miss Lois Landau, daughter of Mr. and Mrs. Abraham Landau of 155 Eastborne road, Newton Centre, has been elected commuter representative for the social activities committee of the freshman class at Simmons College.

Miss Landau graduated from
Newton High School where she
was a member of the Debating Club, English Club and editor of the school Newspaper.

# Balancing The Year

The short days are upon us. It will be another week before the winter solstice, but the day's change now is slight. Daylight, sunrise to sunset, will shorten only another two minutes or so before it begins to lengthen. The evening change, in fact, has already begun, the year's earliest sunset already past; but sunrise will continue to lag on through the year's end.

Thus the year balances its accounts. In our latitude we know that each year brings the time when not only the candle but the hearth fire must burn at both ends of the day, symbol not of waste but of warmth and comfort. The sun cuts a small arc far to the south and shadows and cold lie deep. It is for this time that we, if we live close to the land, lay up the firewood and the fodder. Now we pay for the long days of summer, pay in the simple currency of daylight. Hour for hour, the accounts are balanced. And yet, the short days provide their

own bonus. The snows come, and dusk and dawn are like no other time of the year. We come to a long winter night when the moon rides full over a white world and the darkness thins away. For the full-moon night is as long as the longest day of summer. And the snowy world gleams and glows with an incandescent shimmer.

Year to year, we remember the short days but we tend to forget the long nights when the moon rides high over a cold and brittle-white world. Not only the moon nights, but the star nights, when it seems one can stand on a hilltop and touch the Dipper. Who would not cut wood and burn a candle for a few such nights each year?

#### Faith in Business Future

According to a news item in The Wall Street Journal, labor unions are starting to invest part of their funds in corporation common stocks. The item observes, "At present most union moneys are invested in government bonds but union heads have sought out new investments to provide higher income and a hedge against inflation."

No one should find this development at all startling. It is true that the unions and the corporations often engage in bitter controversies. But it is also true that those corporations, of all sizes, are the employers of most union members and that the welfare of labor is inseparable from the welfare of business. Depressed business can't employ the maximum number of people or pay maximum wages. Moreover, if unions have a financial stake in corporate enterprise, they may take a greater interest in corporate enterprise, they may take a greater interest in corporate problems, including taxes, wages, profits, inflation, and all the rest. Workers get the lions portion of corporation income in wages, If they are also stock owners they share in management and

It is good business practice for unions to invest in common stocks. More and more individuals, to say nothing of organizations of many kinds, have been using some of their savings to buy stocks. They know there is a risk in stocks, as there is in any kind of property or business venture. But they know, too, that the economic future of this country depends on the future of its

industries and they have faith in that future. Last, but not least, the wider the distribution of stocks, the greater will be the opposition to socialism and communism and the other philosophies of destruction.

#### A Soldier's Version of 'Night Before Christmas'

Twas the night before Christmas and all through the tent Was the odor of fuel oil (the stovepipe was bent). The shoepacs were hung by the oil stove with care, In hopes that they'd issue each man a new pair. The weary GI's were sacked out in their beds, And visions of sugar babes danced through their heads When up on the ridgeline there rose such a clatter (A Chinese machine gun had started to chatter). I rushed to my rifle and threw back the bolt; The rest of my tentmates awoke with a jolt. Outside, we could hear our platoon sergeant, Kelly, A hard little man with a little potbelly:

"Come Yancy, come Clancy, come Connors and Watson, "Up Miller, up Shiller, up Baker and Dodson!" We tumbled outside in a swirl of confusion, So cold that each man could have used a transfusion. "Get up on that hilltop and silence the Red, "And don't you come back till you're sure that he's dead." Then, putting his thumb up in front of his nose Sgt. Kelly took leave of us shivering Joes. But we all heard him say, in a voice soft and light:
"Merry Christmas to all—may you live through the night."

DID MUCH TO HELP

On behalf of the thousands of you for the help given by the Newton Graphic to the 1953 United Red Feather Campaign for Metropolitan Boston.

Ignorance of the purpose and importance of this community effort is the most stubborn obstacle that we face. The local newspaper contributes a unique service by building community pride and interest in its local social agencies and voluntary fund-raising or-

ganization. I cannot praise too highly the earnest, devoted citizens who served again this year as solicitors and workers in the drive. I wish that it were possible to thank personally each one of them, and each of the many generous contributors. The personal sacrifices made by them may change the future for some unhappy person, a neglected child

LAsell **7-1402** 

A Political Columnist Writes to Santa! . . . Dear Mr. S. Ciaus:

This letter probably will be quite different from those you have been receiving from all the boys and girls who have suddenly become shining models of exemplary deport-ment with little white halos over their heads and who have been writing to you about the things they'd like to find in their stockings and under the tree on Christmas

We realize that you are busier right now than a floor manager at a national convention. But after you have filled all the orders from the little tykes, we want to offer a few polite suggestions in behalf of some of our distinguished politicians who are likely to

be too busy to speak up for themselves. You came around early this year for the Republicans, and while they do not want to appear ungrateful, they privately think you were a little tardy in showing up. Furthermore, they are expecting a return trip on your part shortly after Mr. C. Herter is sworn in at the State House and Mr. D. Eisenhower moves into the White House.

Some of your Republican admirers also ve been over-doing things a bit the way you have been dropping jobs into the stockings of the lameduck Democrats, and they are wondering whether there is going to be anything left

over for them. For the Democratic politicians on Beacon Hill you might bring a generous supply of warm mufflers. They are going to be out in the cold for the next two years, and they are very apt to find the weather chilly at the Governor's office after Jan. 8.

We hope you will firmly resist any temptation to assume the role of humorist and that you will not leave a supply of cough drops for Mr. P. Dever or a new gag book of bright sayings for Mr. A. Steven-

What Mr. Dever really needs most at this point is a long list of empty jobs for those who view him, Santa, as one of your understudies and are clamoring for snug places on the payroll before he saunters down the State House steps on Jan. 8 as the cannon boom on the Common in accordance

with old custom. The members of the incoming Massachusetts Legislature would be most appreciative if you would drop a fat pension into their stockings without creating too much fan-

They performed that little chore for themselves some time ago. But then they became a little over-generous in provid-ing for their old age at the people's expense, and when public indignation ex-ploded last September they hastily wiped out the laws they enacted for themselves.

That was a rather painful action, Mr. S. Claus, and if it had been any other time than on the very eve of primary, when the legislators were fearful that the outraged voters might heave them out of office, pensions and all, it probably would never have been taken. Now many of the legislators have decid-Now, Santa, don't go away because we are going to discuss Christmas gifts in a

more serious vein for some very distinguished gentlemen, whose fame undoubtedly has reached even your ears.

President-elect Eisenhower would like some solution for ending the war in Korea, and 180,000,000 other people also would

consider this quite a gift for them. This should be given the No. 1 position on your Christmas list.

A number of Republican orators declared loudly in the campaign last autumn that President Truman got us into Korea and

that now he can't get us out of it. We don't feel quite that way about. We suspect that Mr. T. did about the only thing he could do under the circumstances and that we might be worse off today if we hadn't made a stand in Korea because the communists probably would have construed that as a sign of weakness and almost cer-

tainly would not have stopped there. The very best present you could bring to all of us, Santa, would be a victory and an honorable end to the fighting that has taken so many boys from their homes and

caused so much sadness and heartache. If you could take care of this request before long, all of us would be disposed to overlook any other omissions or lapses of memory on your part.

Of all the politicos we know, the Hon. C. Herter has probably the longest list of things he'd like for Christmas, and I'm sure you won't think this selfish of him after we tell you what they are.

What he wants most is a flock of new industries for Massachusetts, and when you bring them you could take the MTA deficit Editor, Newton Graphic: away with you. If you really want to make a good fellow of yourself, you also could leave a workable plan for placing the MTA

on a self-supporting basis.

Don't think you can palm this MTA request off onto anyone else, Mr. S. Claus, because if you don't take care of this matter, no one else is going to. We hope we will not have to be stern about it, but this is one of those do-it-or-else requests.

Governor-elect Herter will be very grateful if you just provide the new in-dustries and the pay-as-you-go MTA, but if you are in a generous mood he would welcome a painless plan for paying a lot of State bills without enacting any new

He also would like the resignations of a number of Democratic State department heads whose terms run into 1954 but who are reluctant to troop down the State House stairs along with Governor Dever.

Mr. Herter is a little apprehensive over the prospect that they might not be entirely cooperative in advancing certain phases of his program.

Lieutenant Governor-elect Sumner G. Whittier, the oratorical whizz-bang of the Republican State ticket, would like some large and enthusiastic audiences before whom he could make his patented fire-andbrimstone speeches, and you could also bring him a few things to talk about because he isn't going to be able to blast the mistakes of the State administration beginning Jan. 8.

One politician who isn't asking a thing U. S. Seantor-elect John F. Kennedy. He's quite satisfied with what you left for him on the night of Nov. 4. It was just what he wanted.

When police in Mt. Clemens, Mich., asked Melvin Reno why he was driving his automobile on the sidewalk, he explained that he mobile on the sidewalk, he explained that he kin, Robert M. Robbins, Quincy was "too drunk to be on the street." Mr. Abrams and George E. Gordin. Reno obviously is a very considerate gentleman who felt he might hurt somebody if he drove on the highway.

Letters have been sent by the Lockwood and Building Commis-

Fred P. Pegnato, president of the Council, described the one-family clapboard house as about 100 years old and "blackened with age." He said it has not been occupied as a dwelling unit for many years and is now a 'detriment to the community."

The text of the letter follows: "I am writing to you in behalf of the Nonantum Improvement Council concerning the property at the corner of Watertown and Adams street in the Nonantum district of our city, the premises being more specifically known as 403 Watertown street.

"The property in question consists of an old wood frame dwelling that has long ago outlived its usefulness. It has been in a state of utter disrepair and neglect for such a long time that it has fallen into a very dangerous condition. It has consequently become a nuisance, particularly attractive to children, and fire hazard. Furthermore, it is injurious to the well-being of the community and degrading to its

outward appearance.
"In view of the foregoing, it was unanimously voted at the recent meeting of the Nonantum Improvement Council to request the City of Newton under its authority as a municipal co-operation to condemn the structure and to order condemnation

"It is therefore urgently requested that favorable action be taken in this matter."

# **Credits Police** Committee is Dr. Reevan I. Le-Husband's Life

Credit for saving the life of her 80-year-old husband after he was struck by a car was to the prompt action of the Newton Police Department last week in a letter written by a Newton Centre woman to Mayor Theodore R. Lockwood.

The letter, signed by Mrs. Alexander Kevorkian of 126 Eastbourne road, Newton Centre, stated that her husband might not have survived "were it not for the well-organized precauions taken."

Mr. Kevorkian was seriously njured on the night of November 22 when he was struck by a car while he was alighting from a bus at the foot of Eastbourne road, the letter said. A Newton cruiser-ambulance, standing by near the scene, rushed him almost immediately to the Newton-Wellesley Hospital for treatment of his injuries.

The use of panel trucks as

cruiser ambulances in areas remote from Newton Police Headquarters in West Newton was in augurated several years ago by Police Chief Philip Purcell.

The text of Mrs. Kevorkian's letter follows:

to remember the old folks and the needy. While we enjoy our holidays in the warmth and cheer of our own homes we must make certain that those who are less fortunate have gifts too, that those who otherwise would have poor fare on Christmas may have a real Christmas dinner.

"We can do this through the Volunters of America, who for half a century have brightened the holidays of the needy and unfortunate. This year the Volunteers will be host to more than 500 elderly folks at a great Christmas party. The elderly guests will be entertained, given a bountiful Christmas dinner and will receive gifts in a program which is the highlight of their
